Empower Every Role with Multi-Level Business Intelligence Training

Excel >> **PQ Power Query** >> **Power BI**

Microsoft Excel Training

Microsoft Excel is a fantastic tool for organizing and analyzing data. Our Excel training teaches you how to use formulas and functions, work with tables, and build and comprehend complex spreadsheets. After training, you can immediately apply our expert trainer's real-world tips, tricks, shortcuts, and useful commands to your everyday tasks.

But what if you have massive datasets or need to automate repetitive tasks? Power Query is the natural next step for Excel users who want to supercharge their data manipulation skills.

Excel Power Query Training

With Power Query, you can work with a wide variety of data sources and improve your data quality to gain insights from your information. Our Excel Power Query courses teach experienced Excel users how to:

- ✓ Import data from various sources
- ✓ Clean and transform data
- ✓ Shape data for analysis
- ✓ Automate repetitive tasks

Power Query skills translate directly to Power BI. While Power Query focuses on data transformation, Power BI adds data visualization, data modeling, and advanced analytics capabilities. A solid foundation in Power Query prepares you for the data modeling aspect of Power BI.

Power BI Training

Our Power BI courses teach attendees of all experience levels and roles how to import your cleaned and transformed data to:

- ✓ **Uncover deeper insights**: Its robust data modeling and visualization capabilities allow you to analyze data and identify hidden trends or patterns.
- ✓ **Communicate effectively**: Create visually compelling dashboards and reports that clearly and impactfully tell a story to colleagues and stakeholders.
- ✓ **Make data-driven decisions**: With the ability to perform complex calculations and leverage advanced analytics, Power BI helps you to make informed business decisions.

About Accelebrate

At Accelebrate, we are passionate about empowering teams and transforming organizations through live, instructor-led training. Dive into our story and discover what makes us tick.

Accelebrate is proud to be part of Axcel Learning.
